

## WHERE CURRICULUM FOSTERS CREATIVITY .

I feel truly fortunate that my child is a part of *Oxford Public School*. The school has a caring and supportive environment where children are encouraged to learn, grow and be themselves. Over the years, I've seen my child make great progress, not just in academics, but also in confidence, creativity and social skills. The teachers are kind, patient and always willing to help. Their dedication and the way they make learning fun really stand out.

I appreciate how the school balances studies with extracurricular activities. Whether it's sports, art, music or drama, children are given many chances to explore their interests and develop new talents. It has helped my child become more active and confident in all areas of life.

Oxford Public School holds a special place in our hearts. My elder daughter is also an ex-student, and the values she learned here continue to guide her even today. I'm thankful to the entire school team for the wonderful role they play in shaping our children's futures.
